

Arduino Microcontrollers by Popularity

Arduino microcontrollers popularity by descending sales from www.aliexpress.com

Popularity	Description	Cost US \$
1	Arduino Nano V3. Separate headers. 2 x 15 pins package size.	2.15
2	ESP8266 Wifi compatible with Arduino Nano. 2 x 15 pins package size.	3.78
3	Arduino Uno R3 compatible (first Arduino design)	3.24
4	Arduino Mega 2560 compatible	7.29
5	Arduino Mini 328 compatible. 2 x 12 + 6 pin package size. Separate headers.	1.63
6	Wemos D1 Wifi Arduino Uno compatible	3.58
7	Arduino Micro compatible. 2 x 12 pin package. Micro usb connector	2.91
8	Arduino Leonardo compatible. (Simpler version of Uno) Micro USB connector	4.40
9	Arduino Due R3 compatible ARM 54 input output pins	14.15
10	Arduino Yun compatible. Linux, Ethernet, WiFi, microSD storage.	56.05
11	Arduino Yun as a communications shield with Linux, Ethernet, Wifi and microSD storage. This works with Arduino Uno / Leonardo / Mega.	27.75
